2D barcode valid for all places that are using the NHS COVID Pass service

Name:

Richard Smith

2D barcode expires:

23 November 2021 at 9.51 AM

How to use your NHS COVID Pass

Understanding your 2D barcode

This 2D barcode code has been issued by the NHS based on your test and vaccination results to help verify that you've been vaccinated against COVID-19 - or tested negative.

What does the code show?

Scanning the code will show your name, confirm your test or vaccination, and an expiry date. The duration of its validity depends on whether you were tested or vaccinated.

What can I do with this code?

These 2D barcodes are being issued as part of the NHS COVID PASS service. If you need to prove your COVID-19 status at settings that have opted in, show this 2D barcode so it can be scanned with the NHS COVID Pass verifier. You must continue to follow all destination and government guidelines, including the wearing of masks and social distancing.

What to do when my barcode expires?

Your 2D barcode expires 30 days from the date of issue. You can generate a new one by logging in to the NHS App, visiting the NHS COVID Pass section, then download or email yourself a new PDF copy.
